

Mark Haynes is President of Concordia Power, his own consulting firm. He provides strategic consulting services to several clients, including the Next Generation Nuclear Plant Industry Alliance.

Prior to the creation of Concordia Power, Haynes was Vice President for Energy Development for General Atomics for nearly 15 years and prior to that time served for 5 years in the Washington office of Fluor Corporation. For most of the 1980s, Haynes was a Professional Staff Member of the United States Senate Committee on Environment and Public Works.

Haynes has a Masters of Environmental Science from Miami University in Oxford, Ohio and a Bachelor of Science Degree from Morehead State University in Kentucky.

Haynes currently serves on the Boards of the Potomac Conservancy and the Cacapon and Lost River Land Trust, is Secretary of his local Civic Association, and is a volunteer for The Reading Connection in Arlington, VA.
