New policy on site access during leaves of absence

HR implemented a new process to help ensure site protection and continuity of operations during an employee's leave.

If an employee is on a full, continuous leave of absence expected to last three weeks or more, the employee's site and system access (e-mail and token) may be deactivated for the duration of the leave. The employee's supervisor will be notified via e-mail, should the deactivation occur. When the employee returns from leave, his/her access will be reactivated within a business day.

Please direct any questions or concerns about the process to Paulette Gangemi in HR.
