## The Power of You ... Support the United Way

**T**he 1997 United Way Campaign Meeting at PPPL is Tuesday, December 2, at 10:30 A.M. in the MBG Auditorium. All employees are encouraged to attend. In addition to providing information about United Way programs, the meeting will feature refreshments, entertainment, a **SPECIAL VISITOR**, and door prizes [see list of prizes on page 4]. Everyone who attends is eligible for the prizes drawn, which were donated by area merchants and PPPL staff and management. In addition, those who contribute to this year's campaign will be entered in the Grand Prize Drawing for a \$300 gift certificate for travel arrangements, compliments of PPPL. Watch for your pledge cards in the interoffice mail. They can be dropped off at the close of the meeting or mailed to 1997 United Way Chairperson Mary Ann Brown at MS 38. Donations may be given as a one-time contribution or through payroll deductions. If you donate through payroll deduction, Princeton University will give an additional 15 percent of your contribution. So if your gift is \$52, United Way will actually receive \$60. Contributors may also earmark which charities they would like their donations to fund. Please, support the United Way! ●

So many to help ● So much to do ● United Way ● It's up to you — Created by Slogan Contest Winner Anthony Contino

# People Helping People

**Robert Goldston,  
Director:**

"I give to the United Way because we owe it to the less fortunate members of our community. It is not really a matter of choice, but of obligation to others."

**Scott Larson,  
Environmental/  
Restoration Waste  
Management:**

I support United Way because it gives me an opportunity to help people who may, for one reason or another, not be as fortunate as I am. The United Way

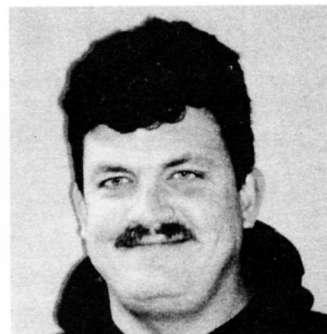

has established a network of caring professionals who stand ready to respond to either group or individual emergencies. I have seen this network in action, and it is impressive. Our society today is an extremely competitive one, and we must remember that not all groups or individuals within society have the same opportunity to compete; the United Way helps bridge that gap. Supporting the United Way is an excellent means for individuals to demonstrate that they have compassion for their fellow human beings, and if it should be needed, that a safety net does exist.

**Mary Ann Brown,  
Engineering and  
Technical  
Infrastructure:**

"I have participated in PPPL's United Way Campaigns since 1983. During this long association, I have been able to encourage giving through

United Way. A contribution to the United Way expresses our concern for the broader community in which we live and work. Through the services it renders, it also indirectly benefits our own employees and families. In these times of economic uncertainty, United Way programs face an even greater demand for their services. If we don't give, we can be sure there will be many who will go without. Our Burma Shave Slogan says it all: 'So many to help, so much to do, United Way, it's up to you.'"

**John Luckie,  
Materiel Control:**

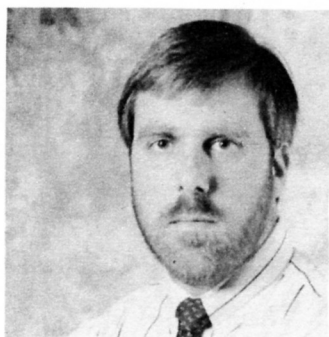

"I give to the United Way because there are a lot of unfortunate individuals who deal with problems day in and day out — problems that the rest of us don't often reflect on.

I'm fortunate that I have a healthy family and believe that caring and sharing starts from the heart."

**Michael Williams,  
Engineering and  
Technical  
Infrastructure:**

"I participate in the Laboratory's United Way campaign because it is a convenient way to support a large number of diverse and worthwhile charities.

By contributing through the Laboratory, we give a little back to the surrounding community which has supported our own programs for many years."

**Barbara Sobel,  
Director's Office:**

"As a single mother I will be eternally grateful to the Big Brothers/Big Sisters of Mercer County (funded by the United Way) for my son's big brother, Jim, who was there for my son when he needed a role model and a friend. This was 17 years ago and that friendship is still going strong."

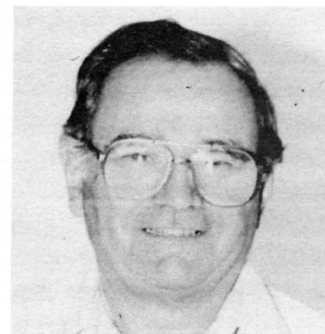

**Margaret King,  
Buildings and  
Grounds:**

"A good deed makes a difference. Doing nothing? Don't complain. Together we can all make a difference."

**John Bennevich,  
Environmental/  
Restoration Waste  
Management:**

"I contribute to the United Way because that organization reminds me of PPPL. First, as the Laboratory is dedicated to the development of fusion energy, the United Way Organization financially 'energizes' the many charitable programs it serves. Secondly, the Laboratory, as well as the United Way, is made up of teams of responsible individuals who strive to make a better future for mankind within our country as well as the world. Thirdly, as with PPPL, the United Way has no external funding. As PPPL depends on Congress for funding, the United Way depends upon monetary contributions from people like me."

**Sonja Patterson,  
Human Resources:**

"I like to give to the United Way because I have seen its effect on people in the community. When someone I know had a stroke, she received food and transportation through the United Way. It was a big help to her family."
