```
echidna SPEC :: plot_cylindrical_event
```

1. Manages cylindrical Poincare window events.

2. Either a mouse-click or a keyboard event on the `cylindrical Poincare` window can initiate various actions.

3. To see the full list of actions available, click '?' while the cursor is above the window.

4. For more information on each action see `plot_cylindrical`.

5. Dragging a middle-click sets the zoom range.
